Summary

Results-driven Full-Stack Developer with expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js) and experience in designing, developing, and deploying scalable web applications. Adept at both frontend and backend development, API integration, database management, and real-time communication. Strong problem-solving skills and a keen interest in building optimized and user-friendly solutions.

Education

Kamrah Institute of Information Technology — Gurugram, Haryana, India
Bachelor of Computer Applications – C.G.P.A: 8.2 — *January 2021 – July 2024*

Kendriya Vidyalaya — New Delhi, India
CBSE 12th – Commerce – C.G.P.A: 8.6 — *July 2020*

Experience

Silversky Digital Pvt. Ltd. — Feb 2025 – Present
SDE I

- Maintain and manage the backend server that hosts integrations with multiple advertisers, ensuring smooth and reliable lead flow from Facebook Ads through tracking and affiliate platforms.
- Built a Lead Management System that receives leads across different offers and publishers and distributes them to the appropriate advertisers, with routing from Keitaro to AlterCPA, LeadVertex, and advertiser endpoints for accurate tracking and real-time delivery.
- Developed a CPA Monitor bot that tracks campaign CPA and cost, automatically pauses adsets when stored thresholds are crossed, and sends alerts on Telegram.
- Created a Meta Ads campaign creator using the Meta API, with reusable templates and the full Ads Manager workflow inside one tool, cutting campaign setup time by 80%.
- Developed a CRM for call centres (trafficgoals.com) where leads are pushed via API or created manually, operators are created and assigned leads, with full reporting, postbacks, and offer creation.

Oxyneuron India Pvt. Ltd. — Feb 2024 – Feb 2025
Fullstack Developer

- Developed and integrated a secure serial number validation API for Bajaj, ensuring reliable product authentication and logging.
- Built a scalable E-Commerce platform with React.js, Node.js, and MongoDB, including PhonePe payment integration and role-based access.
- Optimized backend APIs for performance and scalability, improving load handling and database efficiency.

Projects

MeetGrow (Contribution) | meetgrow.in | *External project*

- Contributed to an industry events discovery platform that helps businesses and professionals find exhibitions, summits, and conferences across India to network, build partnerships, and discover growth opportunities.
- Fixed UI issues, user flow, and functionality across the platform.

Studynotion – EdTech Platform | *React.js, Node.js, Express.js, MongoDB, Stripe API*

- Developed backend APIs for product management and order shipment workflows, ensuring efficient and reliable data handling.
- Integrated Stripe as a payment gateway, enabling secure and seamless transaction processing.
- Designed frontend features with React.js for a user-friendly admin interface.
- Optimized API performance for scalable and high-traffic operations.

Technical Skills

Frontend: ReactJs, Redux Toolkit, JavaScript, HTML, CSS
Backend: Node.js, Express, REST API, Socket.io, BullMQ
Database: MongoDB, MySQL, SQL, Redis
API Testing: Postman
Version Control: Git, GitHub
Cloud and DevOps: AWS, DigitalOcean, Docker, Nginx, PM2, Linux, Vercel, Render
